📄 Product Requirements Document (PRD): Pricing & Feature Pivot

Project: Babiyo Website Update (Pivot to Sanskar & Lifestyle)
Objective: Update the landing page copy and pricing section to reflect the new 7-point "Dharmic Parenting & Sanskar" product offerings.
Design Theme to Maintain: Warm, mindful parenting, "cozy" vibe, heavy use of soft emojis (🌙, ✨, 💛), clean sans-serif typography, and uncluttered spacing.

1. Hero Section Updates (Top of the page)

Location in Code: The first <section> after the <header>.
Developer Instruction: Update the main headline and subheadline to reflect the shift from purely "Astrology" to "Sanskar & Spiritual Well-being."

- **Current Main Heading:** "Discover Your Baby's Unique Potential Through the Stars."
- **NEW Main Heading:** Nurture Your Baby's Roots Through Ancient Sanskar.
- **Current Sub-text:** "Connect with expert astrologers, join a community of mindful parents, and nurture your baby's journey."
- **NEW Sub-text:** "Access digital Sanskar guides, soothing audiobooks, virtual rituals, and a community of mindful parents building strong cultural roots."

2. "What We Offer" Section (The 7-Point Pitch Integration)

Location in Code: The second <section> (currently has 4 grid items: Chat, Community, Poojas, Contests).
Developer Instruction: Change the grid layout to accommodate the new digital offerings. If the current grid is 2x2, expand it to show the core digital features clearly.

Developer Instruction:

1. The logic remains the same (collecting Name + WhatsApp), but the text variables must be updated.
2. If a user clicks the ₹799 plan, the modal should say: "Your spot is secured for the Sanskar Premium Plan." (Replace instances of "Gold Plan").
3. Ensure the text inside the modal reflects the new branding: "To ensure our experts can provide the best personalized Havans and guidance, we are onboarding slowly."
